About Us

Introduction

Ardent Fire Protection Ghana Limited is a wholly owned Ghanaian Company established and registered in January 1999. The company represents Ardent Limited of the United Kingdom. We are registered with the Ghana Minerals Commission as a Mine Support Service Company. We are also registered with Ghana National Fire Service as a Fire Protection Service Provider/Contractor (CATEGORY D). We have engineers trained and certified by the manufacturer of Ansul Vehicle Fire Suppression System, TYCO INC, in planning, installation, maintenance and troubleshooting of the product. Under the visionary leadership of Mr. John Arthur, the Founder and Managing Director, the company has grown from staff strength of two at its inception to more than thirty staff.

Ardent Fire is a well known brand in sales and after sales services of fire protection equipment for heavy duty and sensitive installations. The Company is now an established player in the Mining, Oil & Gas and allied industries in Ghana and West Africa known for its delivery of up-to –the minute fire protection solutions.

Its strong corporate values of efficiency, safety, integrity, discipline, proven ability to meet exacting deadlines, proactive and cooperative approach to duty has ensured the satisfaction of both technical personnel and customers.

Our growth philosophy is driven by a culture of strong customer care practices, which spurs team members to respond to clients call on 24-hour basis thus consolidating trust and goodwill for sustainable business relationship.

Ardent is a fast growing company with a strong vision to expanding its business operations to cover the whole industrial sector of Ghana and the West African sub-region.

We are your ideal solution for fire protection to minimize your equipment downtime and personnel injury due to fire incidence.

Projects

Ardent Fire has a number of on-going projects in the Mining enclaves of Ghana and West Africa with a track record of enviable performance which has led to contract renewals and deepening relationship with clients.

**ARDENT FIRE
PROTECTION
GHANA LIMITED**

Project Novel

This is an on-going project which commenced in 1999 for **African Mining Services Limited**, a mining contracting firm operating in Ghana and other West African Countries. The project involves installation and maintenance of Ansul A-101 fire suppression systems on mining haulage equipment and current project sites are; Ayamfuri and Nzema in the Western Region of Ghana, Yatella and Syama in Mali. Previous project sites have been Goldfields Ghana Ltd, Damang and Tarkwa Mines, Newmont Ahafo Mine etc. the project's annual receipt value has increased tremendously and it is expected to grow significantly in the future.

AMS
AFRICAN MINING SERVICES

Project Damang

The project commenced in 2011 at Damang Mines for Goldfields Ghana Limited in the Western Region of Ghana. The project is still on-going with very high growth prospects. Goldfields is one of the leading mining companies in the country and we are so proud to be associated with their impressive performance.

GOLD FIELDS

An Engineer Working on a Fire Suppression System

Project Newmont

This project started in the year 2008 at Ahafo Mine Site, Kenyasi for Newmont Ghana Gold Limited and it is still on-going. The scope covers installation and maintenance of Ansul A-101 fire suppression systems on Mine haulage Equipment. The project's gross receipt from inception has almost doubled, attesting to our impression customer centered delivery target.

Project Liebherr

This project started in 2007 and it is on-going. It involves commissioning and after sales maintenance of Ansul A-101 fire suppression equipment on large Liebherr excavators at Goldfield Ghana Limited, Tarkwa Mine Site. The project annual value has increased tremendously and has shown very high prospects for growth.
